EYFS: 3.55, 3.56, 3.57

Policy statement

At Ridgemount Cottage Nursery we take reasonable steps to ensure the safety of children, staff and others on the nursery premises in the case of a fire or other emergency through our fire safety policy and emergency evacuation procedures.

We ensure our premises present no risk of fire by employing the highest possible standard of fire precautions. The person in charge and our staff are familiar with the current legal requirements. Where necessary we seek the advice of a competent person, such as our Fire Officer or Fire Safety Consultant from Chosen Fire Protection Ltd. (01452 346321) or Dan (07980098931).

The Deputy Manager is our designated fire marshal, Caron Humphris. Please see 44a: The role of the fire marshal

We ensure the nursery premises are compliant with fire safety regulations, including following any major changes or alterations to the premises. The designated fire marshal ensures that we have all the appropriate fire detection and control equipment (e.g. fire alarms, smoke detectors, fire blankets and/or fire extinguishers) in working order and seeks advice from the local fire safety officer as necessary.

They also have overall responsibility for the fire drill and evacuation procedures. These are carried out and recorded for each group of children, every three months or as and when a large change occurs, e.g. a large intake of children or a new member of staff joining the nursery. These drills are planned to occur at different times of the day and on different days

to ensure evacuations are possible under different circumstances and all children and staff participate in the rehearsals.

All staff receive fire safety and evacuation training (including as part of induction) to help them understand their roles and responsibilities. This includes the steps they must take to ensure the safety of children: for example keeping fire doors free from obstruction, how to safely evacuate the children and where the evacuation meeting point is situated. Each room has a specific evacuation plan, which includes information such as evacuating non-mobile babies and using alternative exits depending on where the fire may be situated.

The designated fire marshal checks fire detection and control equipment and fire exits in line with the timescales within the checklist below.

Registration

An accurate record of all staff and children present in the building must be kept at all times and children/staff must be marked in and out on arrival and departure. This is done on FAMLY and can be accessed on tablets and laptops. An accurate record of visitors is kept in the visitor's book. These records are taken out along with the register and emergency contacts list in the event of a fire.

No smoking/vaping policy

The nursery operates a strict no smoking/vaping policy – please see this separate policy for details.

Fire drill procedure

If you are unable to evacuate safely:
